

Upcoming User Interface (UI) Changes – Preview

The preview included below is not finalized and is subject to change. This preview will provide a general idea of the changes that will be coming with the new Relias User Interface.

The first thing you will notice is that the Log In page is slightly different.

The image shows a preview of a web application's login page. It features a light blue header bar at the top. Below the header, the page is divided into sections. The first section is a large white box with a thin grey border. The second section is a white box with a thin grey border containing the text "Log In". The third section is a white box with a thin grey border containing the login form. The form has two input fields: "User Name *" and "Password *". Both fields are marked as required with an asterisk. To the right of the "User Name *" label, there is a note "* Required Field". Below the "Password *" label, there is a link "Forgot Your User Name or Password?". Below the "User Name *" input field, there is a link "Not a User? Register Now!". To the right of the "Password *" input field, there is a teal button labeled "Log In". At the bottom of the page, there is a link "+ View System Requirements".

Learner Role

The learner roles will have the most changes take place. The page has been optimized to be used in mobile browser, as well as on a traditional computer. After the changes go live, the first time a learner logs in they will begin a 2 minute course to teach them about the new navigation.

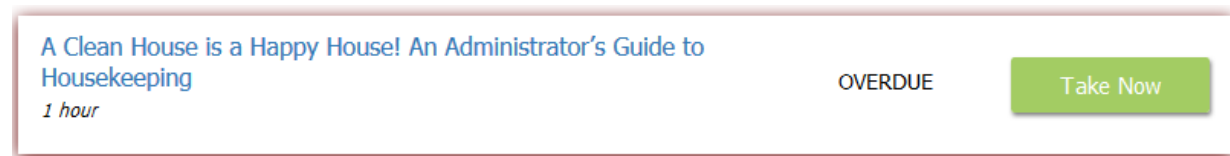

If you choose to opt in to gamification, the learner dashboard will have additional functions including a *crest* and a *leaderboard*. By taking courses, learners are rewarded with coins and can use them to purchase *seals* to decorate their *crest*.

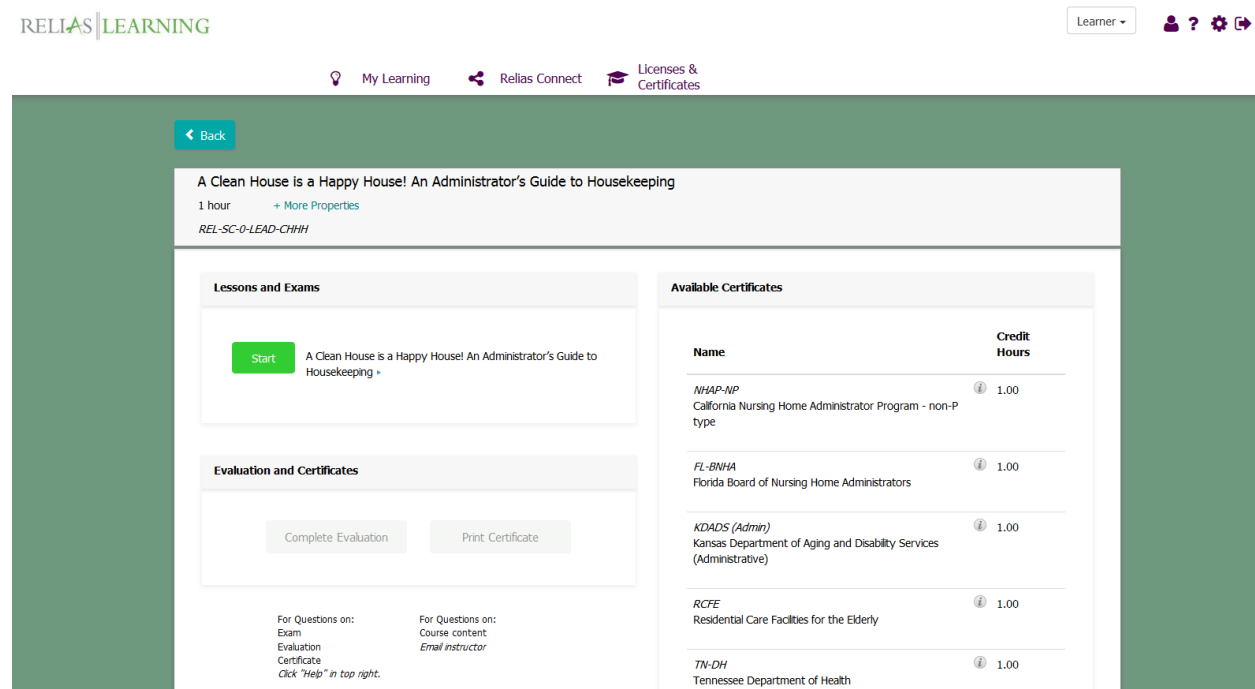

Across the top of the page are several new navigation icons to replace the old banner.

“My Learning” will direct the learner to their current assignments. This has been made more intuitive with buttons labeled “Take Now” to indicate where to click to begin an assigned course (as shown above).

After a learner clicks “Take Now” they will be taken to the course navigation screen. Options to start each section of the course are similar to the previous layout. However, we have also added a section with Available Certificates to make it very easy for a learner to see if they will receive CEUs by completing this course.

My Learning

Relias Connect

Licenses &
Certificates

“Relias Connect” will direct the learner to the “Learner Resources” section of Relias Connect, the same way the learner is currently directed to Relias Connect.

My Learning

Relias Connect

Licenses &
Certificates

“Licenses and Certificates” has replaced “Licenses/Certificates.” This page has been simplified to make it easier for a learner to add their license or certification. To add, they must click on “Add Your License or Certificate.”

Additional Navigation Changes

The options available in the top right corner of every Relias page have also changed.

Change User Role – If applicable, the option to change user roles will be available via drop down menu.

My Account – This option will direct a user to their profile information. If any information is available for them to edit (address, contact information, etc), they can make those changes here.

Help – This option will allow a learner to send an email to the “Contact Email.”

Settings – This option allows a learner to change the language of the RLMS.

Log Out – This will log the current user out.
